

TurtleBay Advisory Services (TBAS) has experts in Technology & Business Strategy with over 20 years of experience helping financial institutions establish the right integration. TBAS is an Oracle Gold Level Partner which authenticates our specialization in developing, implementing, and selling products and services across Oracle's entire portfolio.

We deliver success to our clients by efficiently implementing, integrating and upgrading their software investments in PeopleSoft Services, Cloud Services, Treasury Management Services, Managed Services, E-Business Suite Services, and Strategic Advisory Services.

You can rely on our expertise and industry best practices to reduce the risks of integrating Oracle applications with the rest of your IT landscape .

We have extensive expertise in:

- AWS, and are OCI Certified
- Oracle EBS implementations in 11i, R12.1, R12.2, on-premise as well as in Cloud (AWS, OCI and AZURE)
- Implementation of OBIEE (Business Analytics) and Migration
- Infrastructure migration from on-premise to the Cloud
- Implementation of Oracle Enterprise Data Quality
- Implementation of Oracle WatchList (Sanctions tool)
- Oracle database installs, upgrades and migration in all current versions and legacy versions
- Migration of Oracle EBS from on-premise to the AWS and OCI Cloud
- IT Governance
- Disaster Recovery configuration
- Various Middleware technologies like APEX, Weblogic Tomcat, Informatica, and Agile
- Oracle Autonomous Database

Our methodology includes the perfect combination of preparation, planning, and focused execution, which has been employed in all our Business and IT Transformation work. Our strong point is that we establish, communicate, and conscientiously follow a process for requirements management and the software development life cycle.

We recognize that a carefully considered and actively implemented communications management plan is essential to ensure success. Our team members are highly qualified professionals who have worked in various sectors and embrace their roles and responsibilities from the very start of each project for optimal efficiency.
