

# CLOUD MIGRATION

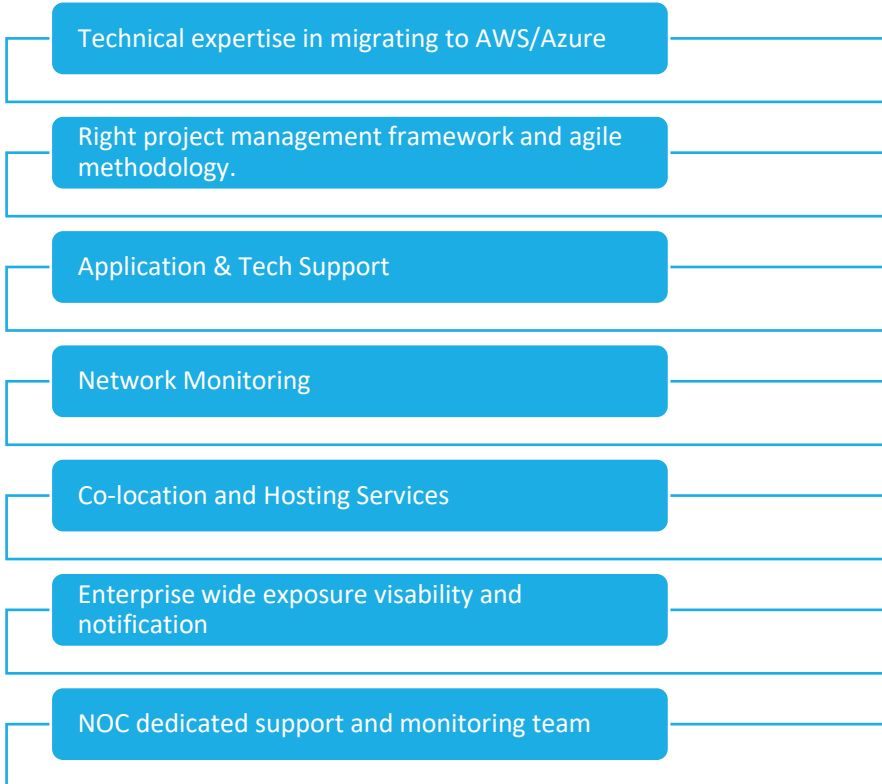

Making your business objectives reality  
Knowledge. Experience. Methodologies. Technology.

We can all agree that **Digital Transformation** is dramatically improving the economics of business. The challenge is how to move forward. There are so many uncertainties and at what point does the opportunity lost outweigh the goal of bringing that vision of transformation to life?

**TurtleBay Advisory Services (TBAS)** is comprised of financial service professionals who truly understand the business objectives. Our extensive expertise allows us to strategically advise our clients on how to improve their core business with technology. TBAS, being a certified Oracle Gold Cloud partner, can attest to the fact that Cloud is no longer a trend but a business imperative.

The Cloud journey will be smoother and much more effective with the right partner by your side. TBAS can offer your organization:

## Benefits of cloud migration:

- Modernize current IT asset base
- Prepare for future needs
- Lower infrastructure costs
- Increase Business Agility
- Disaster Recovery
- Security

TBAS offers options to move part of or an entire system to the cloud without disrupting the current business:

- Lift and Shift approach
- Hybrid Migration Strategy which is ideal for companies with large systems involving many applications
